# Space colonization

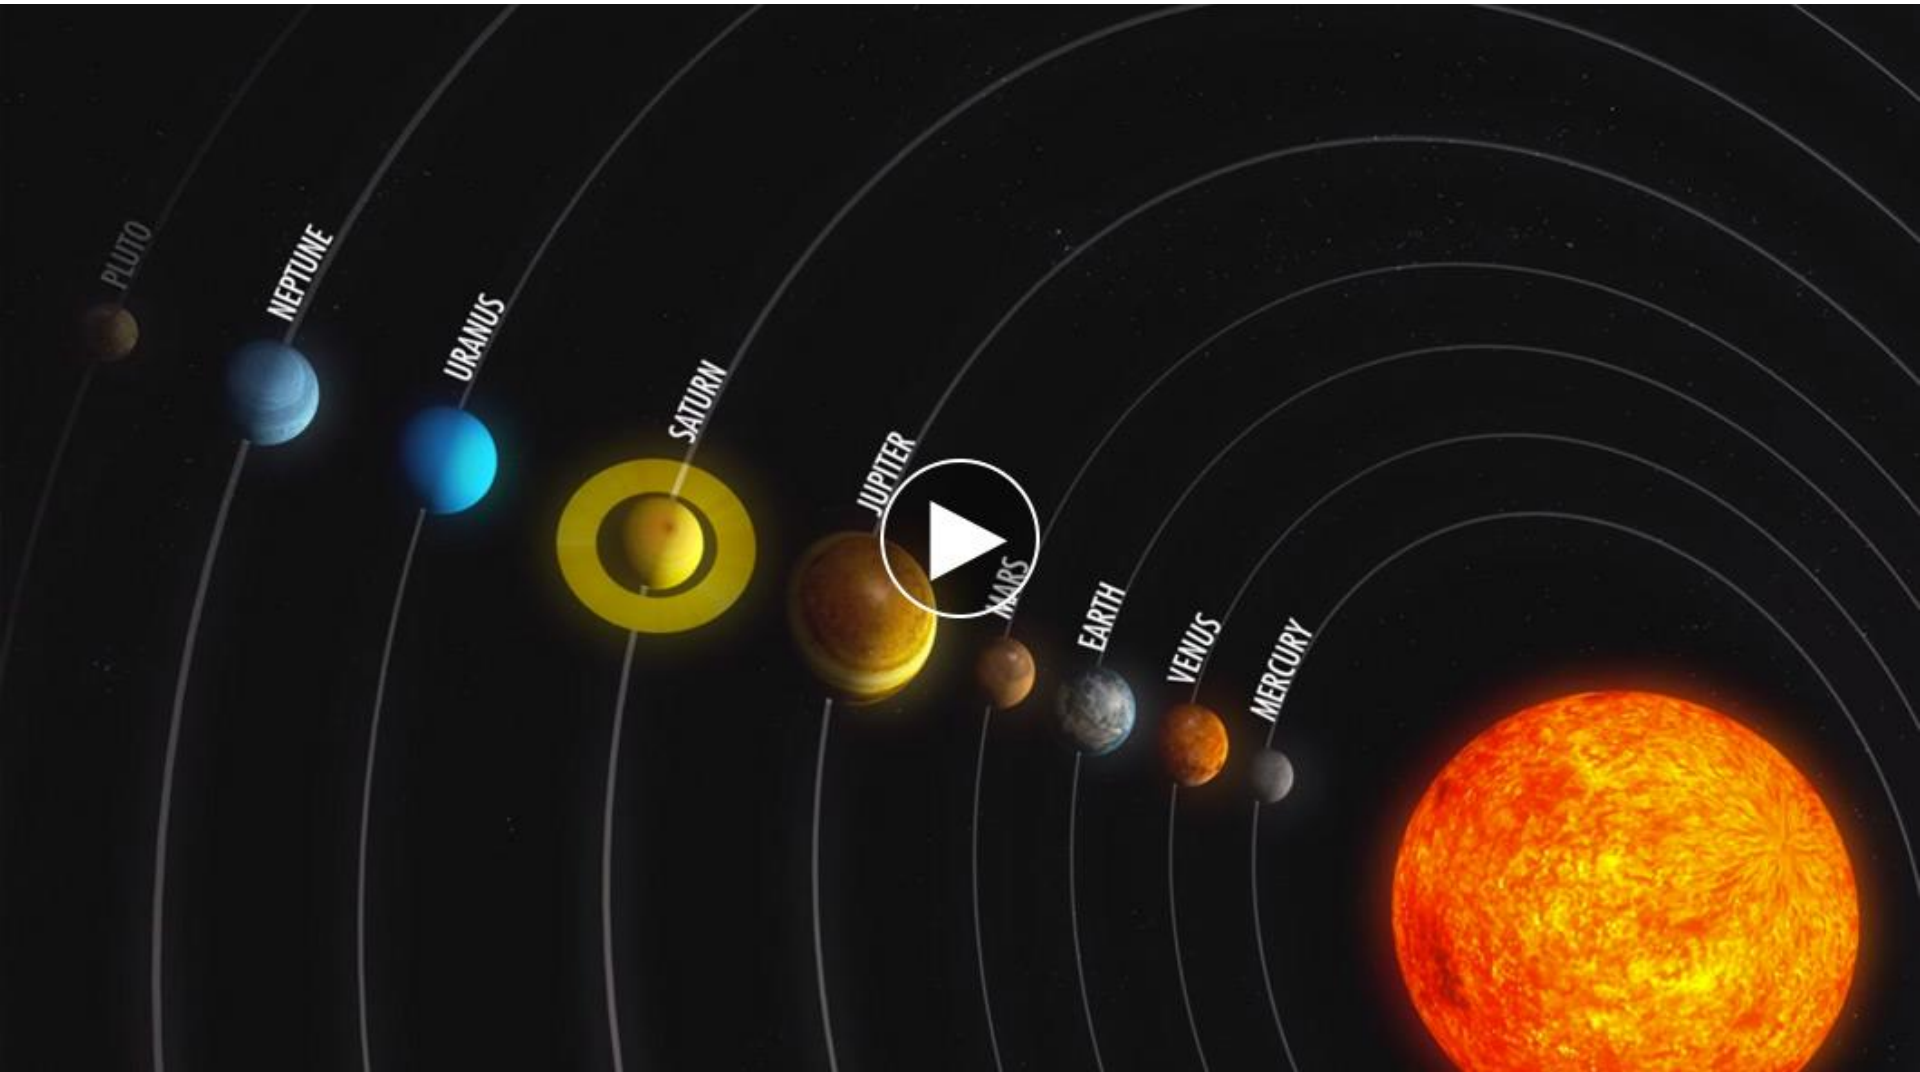

- ... is the concept of permanent, self-sufficient human habitation of locations outside Earth. It is a major theme in science fiction, as well as a long-term goal of various national space programs.

Should we spend money  
on space colonization or  
shouldn't?

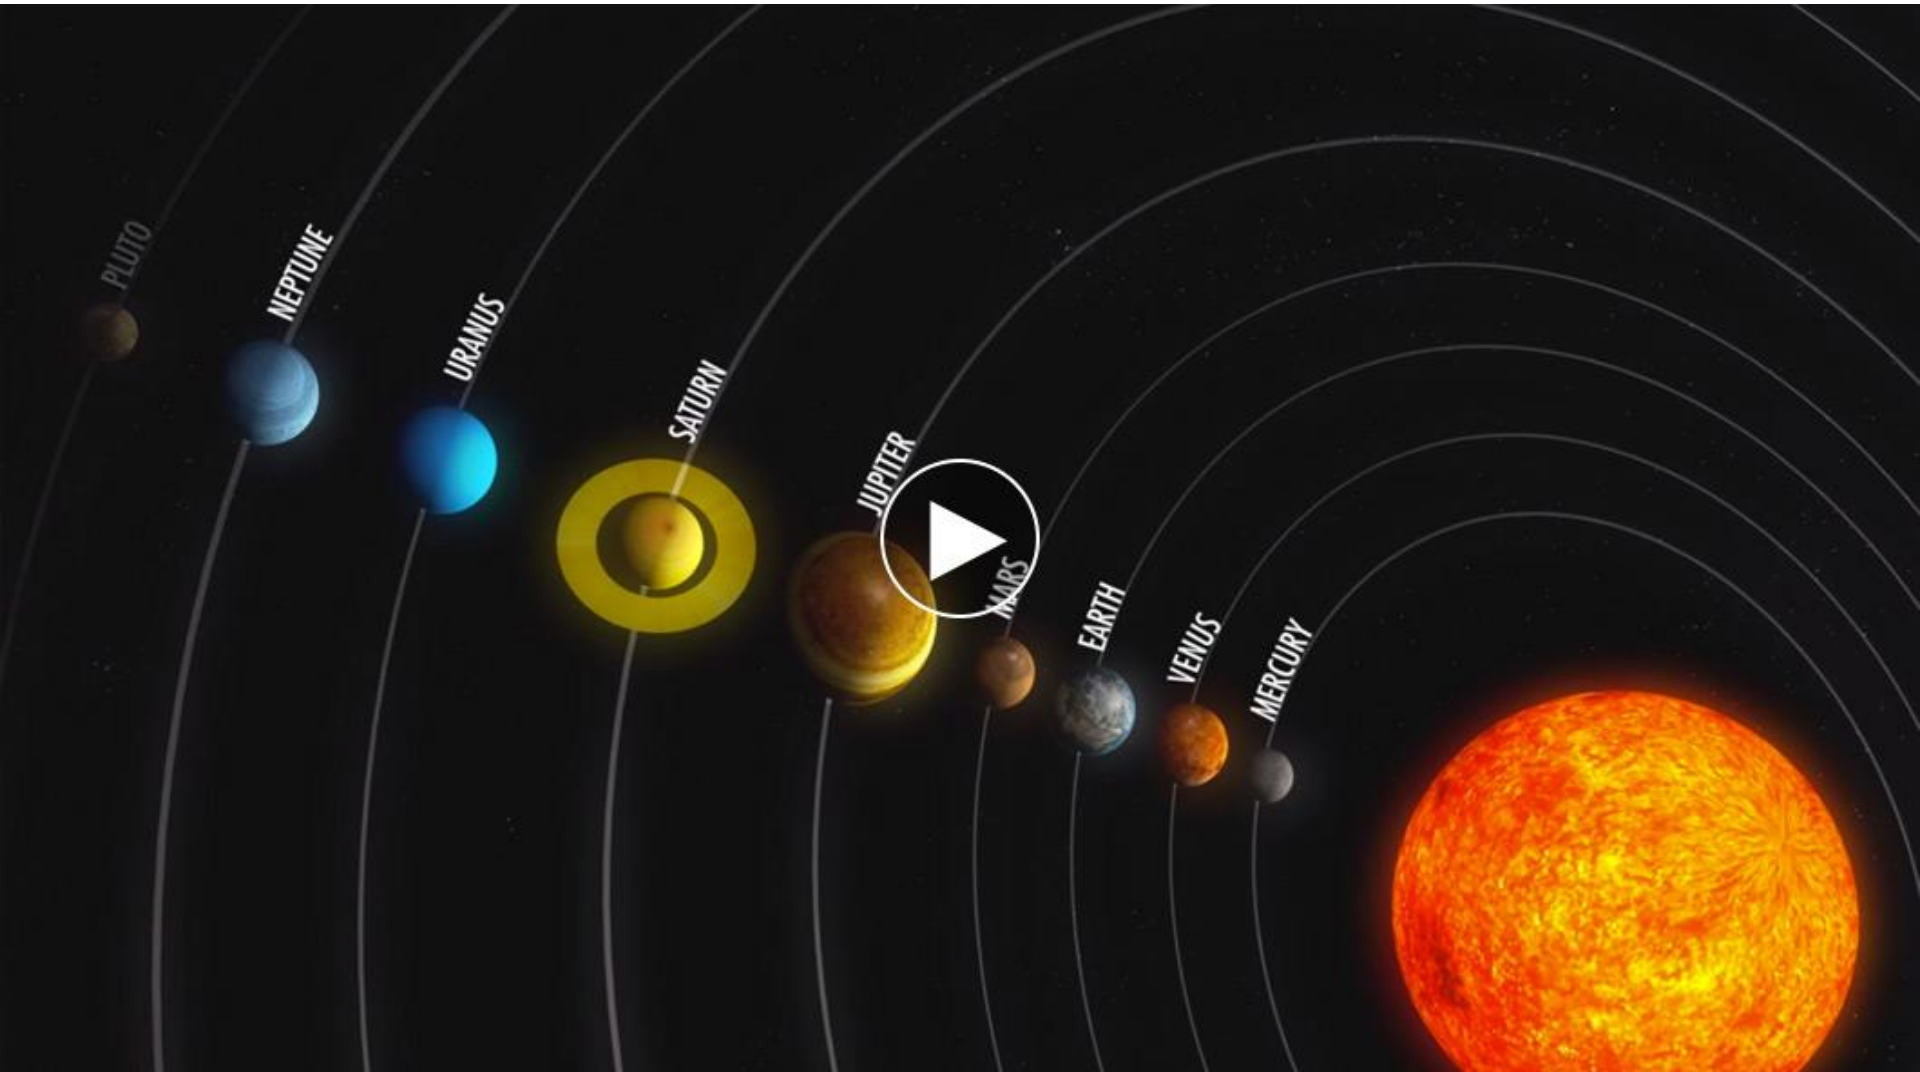

# We are going ...

- *to update our knowledge of the space*
- *to enhance our vocabulary*
- *to discuss the topic question, giving arguments in favour or against space colonisation*

# The Solar System

# The Solar System

# The goals of our lesson

- v to update our knowledge of the space*
- to enhance our vocabulary*
- to discuss the topic question, giving arguments in favour or against space colonisation*

# Stephen Hawking

- If the human race is to continue for another million years, we will have to boldly go where no one has gone before.

- v to discuss the topic question, giving arguments in favour or against space colonisation*

# Homework

1) Comment the following statement.

***Space colonisation programme must be financed more in the modern world.***

What is your opinion? Do you agree with this statement?

Write 200 – 250 words.

Use the following plan:

- make an introduction (state the problem paraphrasing the given statement)
- express your personal opinion and give 2–3 reasons for your opinion
- express an opposing opinion and give 1–2 reasons for this opposing opinion
- explain why you don't agree with the opposing opinion
- make a conclusion restating your position

**Or**

2) Make sentences (SB p106 ex 6) and translate the last two paragraphs of the text into Russian

# Reflection

- What have you learnt during today's lesson?
- What was complicated / curious for you?
- What did the lesson make you think about?

- It's up to us to change the situation. There is still hope. We must change our lifestyle now, before it is too late.
